

## GRADUATE ASSISTANTSHIP AVAILABLE

<b>POSITION</b>	Graduate Research Assistant (GRA), M.S. Interactions Between Microbes, Minerals, and Metals NCSU Soil and Environmental Biogeochemistry Laboratory (PI: Owen Duckworth)
<b>JOB DESCRIPTION</b>	<p>We seek an exceptional M.S. student to conduct independent research on the interactions of microbes with mineral surfaces and metals. Activities may include conducting traditional geochemical and cutting-edge microscopic or spectroscopic experiments to better understand the fundamental mechanisms of biogeochemical processes. Opportunities exist to interact closely with collaborators within NCSU and at other institutions.</p> <p>Related activities include laboratory work and possibly field work; data analysis; report and manuscript preparation; and presentation of research at local, regional, and national meetings. All GRAs participate in our teaching program by assisting in the instruction of two laboratory sections of the introductory undergraduate soils course or an equivalent teaching experience.</p>
<b>LOCATION</b>	<p><b>Department of Soil Science, North Carolina State University, Raleigh, NC</b></p> <p>We are unique among our peers due to our diverse expertise in environmental and soil science, as well as our fundamental knowledge of the physical, chemical, and biological process that are key to understanding issues associated with these fields. Our outstanding faculty and strong collaborations make us an internationally recognized center for innovative research and graduate training. We seek high-quality students pursuing careers in soil and environmental science.</p> <p>The Raleigh-Durham area consistently ranks among the best places to live in the United States, largely due to its vibrant intellectual community and ample access to recreational and cultural activities.</p>
<b>QUALIFICATIONS</b>	B.S. degree in Chemistry, Geology, Environmental Science or Engineering, Soil Science, or a closely related discipline. Demonstrated excellence in academics, and written and oral communication skills.
<b>STIPEND</b>	Annual stipend is \$16,000. Tuition and health insurance are covered under the Graduate Student Support Plan.
<b>HOW TO APPLY</b>	<p>For further details about this position, please contact: <b>Owen Duckworth</b> Department of Soil Science, North Carolina State University <a href="http://www4.ncsu.edu/~owduckwo/">http://www4.ncsu.edu/~owduckwo/</a> owen_duckworth@ncsu.edu (919) 513-1577</p> <p>Applications may be submitted online through the NCSU Graduate School (see the "Apply to Graduate School" option at <a href="http://www.ncsu.edu/grad/">www.ncsu.edu/grad/</a>).</p>
<b>DATE AVAILABLE</b>	January or August 2010

North Carolina State University is an equal opportunity, affirmative action employer and actively seeks diversity among its employees.
