

NCTF 1<sup>st</sup> Session: Joined on March 4, 2008 at 9:01 PM

Moderator (bob): Private messages can be sent to any selected participant by selecting a name from the drop down box. BE AWARE - you must click back on "This Room" to make your next message public.

Moderator (bob): We'll get to who participates when a bit later. Right now we want everyone on board. Some people will probably have problems so this is partly a troubleshooting night.

Jennifer C GA: It's 9:01 - we're late.

Moderator (bob): Everyone remember - Those of you sending private messages need to adjust your "Send to" back to this room for messages that are to be public.

Angel D NH: Hey, this is their dime now.

Tamera R: Troubleshooting night that's good. As I had a few computer troubles, glad they seem to be all worked out now.

Moderator (bob): OK everyone - We are ready to get started. Please refrain from comments for now & read (if you haven't already the Whiteboard slide.

Don - WI: I recommend the wide layout

craig f CA: is this group five

Marc S NH: I just got kicked off -

Trisha b az to David C. AZ: yeah you made it David

Moderator (bob): Any questions about slide #1?

Ariel T co: no

Brett k co: no

les k wi: nope

David C. AZ to trisha b az: no

alex r: no

David C. AZ to trisha b az: whoops

Tara V CO: Is it just the welcome slide?

john k nh: ditto

Foster F GA: no

Diana I GA: no

allison a: my screen still shows the intro

magda v wi: dont think so

David C. AZ to trisha b az: hey trisha

Virginia P WI: no

John E WI: no

Madhavi D WI: no

Nichole c co: negative

David C. AZ: no

Moderator (bob): Great mugshots, eh?

Moderator (Patrick Hamlett): Awe pretty...

Angel D NH: oohers...pics.

Diana I GA: very cool

allison a: ok i have the pics

Madhavi D WI: cool

Moderator (bob): That's us - now on to the agenda for tonight.

Madhavi D WI: ok

Ariel T co: sounds good

Moderator (bob): Let me know if you have any questions about the agenda.

les k wi: how do we know what team we are?

Alexander T NH: nope

Foster F GA: no

Diana I GA: not yet

Moderator (Patrick Hamlett): Les: The team rosters are coming up and are on the project web page

allison a: i am in one

trisha b az: I am ready no questions yet

Moderator (bob): Les - We'll be posting that on a slide in a bit.

Jennifer C GA: None

Moderator (bob): New Slide.

Lynda Z AZ: moderator bob not only shows up on the chat screen but also shows as an annoying announcement window. can we stop that repetition?

Moderator (bob): Sorry about the announcement, but I may have to use it to get group attention.

Lynda Z AZ: ok

Teresita B CA: This layout is good. Yes, the moderators need to get our attention as necessary.

Angela C CA to bob: I'm not sure if it helps get attention; it just interrupts my reading...

les k wi: i agree

Angel D NH: I'm ok with it, wakes me up.

Jennifer C GA: okie dokie

Moderator (bob) to Madhavi D WI: Madhavi - Are you having any problems with your screen? There is an X next to your name

Ariel T co: layout check

Madhavi D WI: No i can see the conversation

Moderator (bob): Has everyone done the selection of layout?

Alexander T NH: yes

Angel D NH: Yes.

alex r: yes

les k wi: yep

nichole c co: yes

allison a: yes

Virginia P WI: yes

Eric B CO: Yes

Diana I GA: yes

emily m nh: yes

Daniel W: ya

Tim H: yes

magda v wi: yes

brett k co: yes

David C. AZ: y

Scott S AZ: yes

Frank C NH: Yes.

Tamera R: yes

Don - WI: yes

Trisha b az: yes

john k nh: yes

Abbey J WI: yes

Madhavi D WI: yes,why is that

Foster F GA: redy to go

Marc S NH: yep

Ariel T co: yes

Craig f CA: craig f berkley yes

Marissa S WI: yes

Rexxor A GA: yes

John E WI: yeah

Ricky L co: Check

Madhavi D WI: hello, can u all see me

Ashley J GA: yes, but will something not work properly if we use the default? It's difficult to read the text with the wide

Rose m co: yes

Jennifer T: Yes

Richard S: yes

Santiago M AZ: yes

peter c: yes

Angela C CA: yes-- do you need us to individually answer every question, or does that get repetitive? (can we assume tacit consent?)

Moderator (bob): OK - Now we'll work on your View with this new slide.

Dana A WI: yep.

Eric B CO: Madhavi, you are crystal clear

les k wi: i can see you fine madhavi

Madhavi D WI: ok

Moderator (bob): Note new screen up.

Madhavi D WI: thanks

Moderator (bob): Anybody have any problems or questions so far?

David C. AZ: no

john k nh: good

trisha b az: no clear as day

Teresita B CA: The font change is helpful.

Foster F GA: ready

Ariel T co: nope

Craig f berkley: craig f CA no

Tara V CO: All good

Dana A WI: can you change the font type?

Moderator (bob): Note new slide. Let me know if you have any questions.

Moderator (Patrick Hamlett): Dana: just right click inside the chat area & pick your font size

Moderator (Tina Ndoh, NC): You all are good at this

les k wi: thanks

Angel D NH: The rats are passing the test

Moderator (bob): Dana - I know of no way to change the font type.

Dana A WI: Patrick==Thanks, but it's the font style that I would like to change--to, say, Times New Roman or something else with a serif. It's just easier to read, especially things of any length.

Dana A WI: Thanks, Bob.

Jennifer C GA: why are my responses not appearing?

Teresita B CA: I was able to activate the faces, but not the hand to indicate I want to say something.

Angel D NH: I see you Jenn GA.

Jennifer C GA: Sorry, now it is. Guess I dozed off! Thanks!

Tim H: jennifer your response says "me"

Diana I GA: same prbl. w/hand not activating-what do I do?

Teresita B CA: Do the numbers indicate sequence of those who want to speak?

Nichole c co: How do I change the font type on a mac?

Moderator (bob) to Teresita B CA: Teresita - I'm not sure why you can't get the hand raising to work.

Jennifer C GA: I know but it was not showing here. I cannot get the emoticons to appear either! What?

Eric B CO: me as well re the raised hand icon

Terry R AZ: ryan T AZ finally got on ,dial up is slow

Tara V CO: ditto on the hand

Foster F GA: ok so is my hand raised

alex r: can you see my responses?

Teresita B CA: Bob, my icon changes in the box, but I don't see any indication in the hand column. what am i looking for?

Eric B CO: I think the hand icon isn't visible; rather a place in line...is that right?

Moderator (bob) to Teresita B CA: Not sure some emoticons or hands aren't working. We'll see if we can get to that later.

Moderator (Tina Ndo, NC): Hello Alex, we see your message

alex r: thank you!

magda v wi: checking

Tim H: hey foster!!!

Jennifer C GA: Where AM I?

Eric B CO: when you raise your hand you "take a number"

Foster F GA: hi tim; guess my hand was up

Moderator (bob): OK - We're not sure why some can't use emoticons or raise hands, but let's get to the next slide.

craig f CA: does anyone know when group five is craig f berkley

Ashley J GA: It appears as though when your hand IS raised there ISN'T a number next to your name and the hand icon is green. When your hand IS NOT raised a number is next to your name and the icon is red

john k nh: wagons hoah!

David C. AZ: can we have everyone lower their hands

David C. AZ: and if you really have to speak then raise your hand?

Tim H: foster, i didn't see your hand up. i was only responding

David C. AZ: right now, the moderator should be expecting 35 of 67 people want to ask a question

Foster F GA: sounds reasonable

Dana A WI: I took my hand down, but still have a number beside my name (26)

David C. AZ: that's fine

Ricky L CO to Tina Ndoh, NC: We are speculating that some cannot use the icons, or not registering is because of a dialup connection. Maybe a poll of systems will clarify this?

Theresa B WI: the icon displays for what you want it to do not what you currently are

David C. AZ: look to the bottom of the participants window

David C. AZ: it should lose a hand raise if you lower your hand right

Ashley J GA: hmm, I tried... oh well

Moderator (bob): David - We can't clear the hands yet until new people are finished logging on. It's a way of tracking new entries & it'll screw Patrick up if we clear them. Normally you won't have to raise your hand to "speak".

Jennifer C GA: I think I 'might' get this after all. Whoa! tnks

craig f CA: i still don't know when group five is craig f CA

David C. AZ: ah, never mind people, keep your hands up

Angela C CA to craig f CA: I think Group 5 is on Thursday

Catherine J NH: I can't tell if I'm showing or not. Can you all read this? I'm not familiar with chat rooms.

trisha b az to David C. AZ: Is my hand down? I can't tell

Tim H: yes we can read it

Moderator (bob): For the time being - Please refrain from using emoticons or raising hands.

j logan az: Hello every one

Moderator (bob): New slide.

Teresita B CA: It might be more productive to refrain from side conversations.

Moderator (bob): There shouldn't be any questions about that, but just in case.....

Marc S NH: when do the wacky shenanigans begin?

Andrea C WI: Sorry I keep exiting -- my computer kept freezing up every time I tried to change the layout. I will blame my emotionally unstable Mac. If it persists, I will use my other computer Thursday.

Angel D NH: James...the ME means "YOU" not your state.

Angela C CA: I agree with Teresita. Would it be reasonable to ask that people send private messages when the subject does not concern the entire group?

Eric B CO: I'd second that..

Tara V CO: The beach!

Frank C NH: Orlando

Diana I GA: Greece

trisha b az to David C. AZ: yes. I did that then with your request. I hit the one down. Is my hand now down

john k nh: Chalatenango....where is it?

Moderator (Patrick Hamlett): My favorite vacation spot is Yellowstone Park & the Tetons!

Virginia P WI: raraonga

Ariel T CO: Trinidad

shannon dinapoli AZ to Patrick Hamlett, Tina Ndoh, NC, bob: i just got one of my people on by walking him through...I think I have another one who was trying to call me on the phone.

Abbey J WI: France

Daniel W: Costa Rica

Marissa S WI: maine coast

Starlyn F CO: Where I am - mountains of CO!

Brett K CO: belize

Mary D CA: Paris, France

Charles P CA: the 1920's

Jennifer C GA: Coney Island

Foster F GA: australia

emily m NH: I don't know - I haven't been on enough vacations

Don - WI: Prague

Angel D NH: Any place warm.

Alexander T NH: greene

Teresita B CA: The ocean.

emily h: I second Paris!

les k wi: i need a vacation

Catherine J NH: My favorite vacation destination is someplace new with my honey.

Theresa B WI: Iceland

Rexxor A GA: St Lucia

Jennifer Turni: Italy

James B: Austrailia

trisha b az: Sky Y CAmp Prescott az

Richard S: Planet Mars

Moderator (bob): I want you to note that being on time is important because the system will not download anything that happened before you arrive. That's why we want everyone to check in early for upcoming sessions.

janine w: home is fine with me

les k wi: india would be cool

alex r: the keys

Andrea C WI: Is there a way to access the earlier portions of a conversation? If it is necessary to exit (as I just did) we lose out on what just happened.

magda v wi: greek islands

allison a: vegas

patrick mCO: BAJA

Tim H to James B: jamacia

Jennifer C GA: Actually, the Netherland Antilles

Ashley J GA: Nassau

Madhavi D WI: sure

Santiago M AZ: Home

j logan az: don't have one

John B wi: I'm retired, so don't take vacations; life is my vacation.

alan h ca: las vegas

craig f CA: ENGLAND

les k wi: even canada would be nice for a change

Angel D NH: Vegas is weird.

Marc S NH: Crawford Notch

Tim H to Ashley J GA: hi ashley

Don - WI: I have a Q about the whiteboard - can you access previous slides once they're gone? The buttons at the top of the Whiteboard window don't seem to be enabled

John E WI: michigan upper peninsula

Moderator (bob): Andrea - The only way to access comments from before your arrival is the next day when the chat is posted on the website. Sorry.

alan h ca: thats why i like it

nichole c co: San Fransisco

Angel D NH: DC during cherry blossom season.

nichole c co: Francisco

rosemurrayco: Machu Picchu

Moderator (Patrick Hamlett): Don: We are controlling the Whiteboard so that the project can move ahead. Can't go back, I'm afraid

Don - WI: OK, just checking

Scott S AZ: I moved to it when I retired.

Tim H to Ashley J GA: it just means only you can see it

Madhavi D WI to les k wi: india would be a wonderful place to visit

Ashley J GA to Tim H: Duh!

Jennifer C GA: You should all come to East Point, Georgia.

alan h ca: is this solely chat or is there audio and cam?

Angel D NH: Quechee Vermont.

Moderator (bob): New Slide. Please look it over.

Terry R AZ: terry R AZ any place that the fishing is good

les k wi to Madhavi D WI: definitely. i always wanted to go there..

Angel D NH: Oh cool.

Moderator (bob): The bold face referred to is that annoying announcement we noted earlier.

les k wi: ooOOoo important

nichole c co: E

Eric B CO: not the red sox

les k wi: e

les k wi: i wouldnt know though

Tara V CO: E

Scott S AZ: E

Catherine J NH: Of course the Red Sox will win again. No contest.

Ariel T CO: E

Tamera R: E

Tim H: e

Dana A WI: e.

Brett K CO: e (Go Rockies!)

Angel D NH: Hey, if they win I get a catered lunch at work.

Eric B CO: I mean E

allison a: e

trisha b az: e

Catherine J NH: I vote D.

Moderator (Tina Ndoh, NC) to Andrea C WI: Please select a letter button at the top of the screen

Teresita B CA: D

Starlyn F CO: where is "view"??

Angel D NH: Can we change the vote if we want to?

Lynda Z AZ: E

Mary D CA: E- none of the above

Ashley J GA: E

Moderator (Tina Ndoh, NC): Please select a letter button at the top of the screen

Rexxor A GA: e

Richard S: b

patrick m CO: E

Moderator (Tina Ndoh, NC): I will give a few minutes for this vote, and set the timer just so that you all can see it

Dana A WI: ok, got it.

Moderator (bob): You need to vote by going to the top of the screen and clicking on A, B, etc. - don't enter your vote as text in Chat.

Angela C CA: Will there be options to refrain, or be undecided?

Moderator (Patrick Hamlett): Angela: Typically, no

Jennifer C GA: do I have time to call my Dad?

Starlyn F CO: What about "no clue?"!

craig f CA: D hands down no question

Moderator (bob): Not everyone has voted. Still deciding, or unsure how to do it?

alan h ca: yes

Foster F GA: i voted but did not see my response register

Jonathan R GA: What am I voting on? Sorry, but it took me until just now to get into this session, and I still don't see any slides?

Ricky L CO: Raise your hand if you need help

Tim H: me too

magda v wi: i clicked on d but don't see it

alan h ca: i selected a letter but it's not registering

Marc S NH: I voted cause I'm wicked smaht

Moderator (Tina Ndoh, NC): Sorry Jennifer, this is not 'Who wants to be the Next Millionaire'.. no phone a friend

John E WI to Patrick Hamlett, Tina Ndoh, NC, bob: I have clicked on "E" twice and still have not seen my vote

trisha b az to Patrick Hamlett, Tina Ndoh, NC, bob: Bob did you get my vote

Catherine J NH: Look over to the left next to your name to see if it registered.

emily h: d

Moderator (Tina Ndoh, NC): Foster, we see your vote

James B: yes foster you picked d

Foster F GA: just came up

Diana I GA: the right letter!

Don - WI: This doesn't bode well for the Dodgers

Starlyn F CO: When do we get into our teams??

Moderator (Patrick Hamlett): Starlyn: Later this evening we'll have Team 1 active

Jennifer C GA: Oh, so I must "raise my hand" to 'respond'? Yes? Boy, you know, I am really not this slow!

alan h ca: which team is active now?

charles c az: thank god ha ha so get any good input on nanotechnology

Brett K CO: no team is active, we're just practicing...

kokila r ga: Hi, I am Kokila Ravi, I had some difficulty logging in...

Catherine J NH: Hi, Kokila!

les k wi: welcome

Tim H: hello kokila

Moderator (Patrick Hamlett): We've locked down the voting and will show you the results as soon as Tina gets a new slide ready

Diana I GA: welcome Kokila

Angel D NH: \*waves\*

Foster F GA: hi kokila, glad you made it

Scott S AZ to Patrick Hamlett, Tina Ndoh, NC, bob: I got my log in wrong, should have shown Stuart S AZ

Moderator (bob): Voting now closed. We didn't get votes from 3 or 4 people. Did anyone have a problem?

Marc S NH: no.

Daniel W: no

Don - WI: Yes, why weren't the Brewers an option?

kokila r ga: Good to see you all here.

j logan az: no

Tamera R: No problems here thanks.

Foster F GA: no, just a delay on the post

Angel D NH: I read a few websites.

trisha b az: Did you get my vote

Moderator (Patrick Hamlett): Don: who are the Brewers?

James B to James B: I'm good

Don - WI: ha ha

David C. AZ: lol

craig f CA: craig f CA no

les k wi: yeah who are the brewers?

kokila r ga: I couldn't vote - probably because I got in late.

David C. AZ: Milwaukee Brewers

Moderator (Patrick Hamlett): There are the results of the voting

Ariel T CO: thats cool

Angel D NH: pwetty!

David C. AZ: how sad

Catherine J NH: Go Sox!

les k wi: i know i was kidding..

John E WI to Patrick Hamlett, Tina Ndoh, NC, bob: well... i just kept clicking on "E" and finally got it

Jennifer C GA: Ah, all you folks are nuts. The Yankees . . . that's it. No further question. And, no, I am NOT drunk. ha ha

David C. AZ: they're gonna lose to the new dodgers

trisha b az to David C. AZ: you must have voted for the dodgers

Moderator (bob): Please note new slide. Any questions?

David C. AZ to trisha b az: i watch too much sportscenter

kokila r ga: No

les k wi: pretty clear bob

Angel D NH: after a hour...won't that only allow two teams to talk?

John E WI: it took forever for me to get my vote to register

Moderator (Patrick Hamlett): Let's hold down the private chatter, folks...

john k nh: Follow the conversation among all the teams for the entire 3 hours?

Catherine J NH: Is the chat icon the little "hi" balloon?

Moderator (bob): Angel - Two teams on any given night, yes.

Starlyn F CO: Thank you Patrick!!

Virginia P WI: I cannot see the names nor the "chat" icons

Angel D NH: Oh I didn't know that.

Dana A WI: umm, there are only five sites listed. Is the sixth, NC?

Angel D NH: So we might not be able to talk with certain people, because it is not our night?

James B to James B: what happened to us in AZ

Ashley J GA: Bob: Can you explain why only two teams will talk on a given night?

Tamera R: Three hours?

Moderator (bob) to Virginia P WI: You may have expanded your chat area to where it is overlapping the participant list.

john k nh: two hours...sorry

Ricky L CO: Would so someone clarify the time

Susan Cozzens GA to Patrick Hamlett, Tina Ndoh, NC, bob: Arizona missing in the list

Angel D NH: Lordies this is late enough and I probably won't make it.

Teresita B CA: Being on every night may be a hardship for a variety of reasons. As long as we are present for our designated night and others as it is realistic, can this be okay?

Tamera R: Thank you I got scared.

David C. AZ: there's probably an hour of the slides, lol, j/k

Moderator (bob): One hour for each team gives ample time for discussion. We won't have time to squeeze in five teams every night.

Angel D NH: Will we know in advance what team will be talking?

David C. AZ: more like half hour

Ricky L CO: Right!

Moderator (Patrick Hamlett): Oops -- didn't mean to leave out AZ!!

James B to James B: I'm with you Tamera.

David C. AZ: lol

Santiago M AZ: this is like my worst PowerPoint nightmare... hah

David C. AZ: it's okay, az

Lynda Z AZ: I'm with you Santiago

Tamera R: Your doomed to Power Point santiago!

j logan az: it's ok santiago

Moderator (Patrick Hamlett): Teresita: It's important that everyone sees the whole discussion, even if you're not actively participating. Skipping a night would defeat this purpose

john k nh: So its one hour for each team and then "start over"...how much time for that?

alan h ca: sounds reasonable

Angel D NH: so if it is not our night to talk, we can log on and just read the scroll?

Moderator (bob): Are there any other questions about this slide. We realize the team approach limits your active chat time, but smaller groups will have more opportunity to actually say what they mean and develop their points.

alex r: So I just want to make sure I get it. So not all teams will be on the same night it will be two teams a night and even if not participating we still need to be on, right?

Ashley J GA: Wouldn't not being able to talk for potential an entire week not be good as well if we move on to another topic?

Ariel T CO: everything is clear thus far

Moderator (Patrick Hamlett): Angle: When it's not your night, you should follow the conversation as it develops

Teresita B CA: Won't there be transcripts to review, if one cannot catch up on a particular evening?

Alexander T NH: So, on nights that our team won't be up, we will not talk at all, just listen?

charles c az: ok when are we going to talk about nanotechnology?

Moderator (Patrick Hamlett): Alexander: Yes, on those evenings your job will be to follow the conversation as it develops

Alexander T NH: okay thanks!

Moderator (bob): Alex R - You are correct sir! Two teams active any given night & the rest should be there to observe.

Terry R AZ: even if our team is not on,do we still get to vote on issues

kokila r ga: Will we also get the transcript of the sessions for future reference?

Moderator (Patrick Hamlett): Terry: Yes, everyone will vote when needed

emily m NH: so there's a very good chance that you won't be able to talk to the actual type of expert you are most interested in questioning?

Jennifer C GA: transcripts . . .will there be transcripts available?

David C. AZ: yes jennifer

Moderator (bob): Kokila - Chats will be posted to the website the day after.

Virginia P WI: will be have a schedule for what teams will be "on"?

Lynda Z AZ: is there any chance we can convince you to change the rules

David C. AZ: no need Virginia, they'll let you know the night you sit down

Moderator (bob): Sorry Alex - I changed your gender.

alex r: its all right

Jennifer C GA: Okay, let's end the idle chit-chat and get to work you guys. (Good thing I am not in charge, dontchathink?)

Catherine J NH: Will we be using many of the icons shown for the discussions?

Lynda Z AZ: i would like to know that i don't have to sit silent for 2 hours. That would be difficult for me, as my team will attest

trisha b az: this is really deep help I am drowning

Moderator (bob) to Lynda Z AZ: Lynda - What change did you have in mind?

Moderator (Patrick Hamlett): The rotation of teams will be Team 1, Team 2, Team 3, and so on, until each Team has participated, then we'll start over with Team 1. Each Team will work for an hour. We may be able to start with Team 1 tonight, so that Thursday would begin with Team 2 & Team 3.

David C. AZ: Catherine, when the need arises, the moderators will let us know when we need to use the icons

kokila r ga: Will we use the Talk button ever? Just wondering...

Moderator (Tina Ndoh, NC) to trisha b az: Trisha are you ok?

Angel D NH: What about people who need to sleep before 11pm est?

David C. AZ: kokila r ga, no

Eric B CO: OMG

Lynda Z AZ: maybe shortening the time a team speaks to 15 min, then more people will be active

Rexxor A GA to Jennifer C GA: Is it just me, or are they making this way too difficult?

magda v wi: I'm with Jennifer...moving along

Moderator (bob): NEW SLIDE - These are Teams 1, 2 and 3. Please make sure you note which you are in.

trisha b az to Tina Ndoh, NC: What are my choices.. I think I am fine. Yes I am fine. This is just endless

les k wi: im not in any

les k wi: oh wait theres more

charles c az: what is our team number tamera?

Ariel T CO: there are more

Angel D NH: 4-6 are coming.

Ariel T CO: 3 more\*

Ariel T CO: yea

alex r: i don't see my name??

Tamera R: Team 5 Im pretty sure

Moderator (bob): Has Everyone noted what team they are on so I can get on to the next three teams?

Lynda Z AZ: yes

Teresita B CA: yes!

les k wi: yeppers

Tim H: yes

alan h ca: yes

alex r: sorry

Madhavi D WI: yes

Diana I GA: yes

Marc S NH: yes

Angel D NH: Yes.

Ricky L CO: For sure Bob

john k nh: go for it!

j logan az: YES

Tara V CO: yes

Catherine J NH: I know I'm on five.

allison a: yes

Dana A WI: yes.

John E WI: yes

les k wi: lol don!

emily m NH: yes

James B to James B: yes

trisha b az to Tina Ndoh, NC: Team two ready

Brett K CO: ya

Frank C NH: yes

Moderator (bob): On to the next three teams - if you didn't find your name last time, it should be here.

alan h ca: go team 6!!!! we rock

les k wi: team 4!

les k wi: wootwoot

Tamera R: Team 5 for me

john k nh: team 6 from sea to shining sea!

kokila r ga: Oh, yes we do, Alan! I am on Team 6 too!

James B to James B: team 3 nanorocks

Tamera R: I meant team

John E WI: yes

charles c az: oh ok

Charles P CA: Is it too late to use telegrams?

charles c az: so when are we going to talk on the topic cuz i think we are running out of time here

Moderator (bob): PLEASE NOTE: When we post the next slide, we'll disable chat for everyone except TEAM 1.

Don - WI: Bob, you should have made the team check a quiz, then we could see who's getting it & who isn't

Marc S NH: Team 4 will dominate

Jennifer C GA to Rexxor A GA: You are Team Two. Sorry we won't be together. Ah, unrequited love.

David C. AZ: something happened to my whiteboard, i can't tell what team i'm on

Angel D NH: Moderator...Can I leave the conversation and read it tomorrow?

Rexxor A GA to Jennifer C GA: I'm in 2

Moderator (bob): NEW SLIDE

emily h: looks like team 4dave

Moderator (bob): We will disable chat for all but Team 1 members. This may take a moment or two.

les k wi to Patrick Hamlett, Tina Ndoh, NC, bob: team 4 nathan

Madhavi D WI to Patrick Hamlett, Tina Ndoh, NC, bob: ok

Ricky L CO to Patrick Hamlett, Tina Ndoh, NC, bob: Am I still alive?

foster f ga: sorry folks just got booted off and had to relog

charles c az to Patrick Hamlett, Tina Ndoh, NC, bob: take a moment for what?

Angela C CA to Patrick Hamlett, Tina Ndoh, NC, bob: test...

Moderator (Tina Ndoh, NC): We see all of your messages... chat to the room has been temporarily disabled while we prepare to bring up team 1

john k nh to Patrick Hamlett, Tina Ndoh, NC, bob: Notables for experts.....Craig Vantor, Stephen Hawking.....etc.?

charles c az to Patrick Hamlett, Tina Ndoh, NC, bob: ok

an l to Patrick Hamlett, Tina Ndoh, NC, bob: Don't miss it believe me.

alan h ca to Patrick Hamlett, Tina Ndoh, NC, bob: can anyone read this?

Moderator (Tina Ndoh, NC): The moderators can read your messages... we see everything

alan h ca to Patrick Hamlett, Tina Ndoh, NC, bob: :0

foster f ga to Patrick Hamlett, Tina Ndoh, NC, bob: nope got booted off but about ready for a smoke

Ricky L CO to Patrick Hamlett, Tina Ndoh, NC, bob: How about this, even tho I am suppose to be mute?

Moderator (Tina Ndoh, NC): We'll be ready in just a moment...

Moderator (Tina Ndoh, NC): Yes, Ricky...I mean everything!

joseph p wi to Patrick Hamlett, Tina Ndoh, NC, bob: Does that mean I can send a private message to the moderators right now?

charles c az to Patrick Hamlett, Tina Ndoh, NC, bob: ok cool how much longer do we have to talk

Catherine J NH to Patrick Hamlett, Tina Ndoh, NC, bob: The goals listed refer to when I am actively involved in the chat with my team, right?

alan h ca to Patrick Hamlett, Tina Ndoh, NC, bob: say hi to Craig hyatt for me...he is in charge of your it dept

emily m nh: I got kicked off again

Moderator (Tina Ndoh, NC): Welcome back Emily

emily m nh: thanks

les k wi to Patrick Hamlett, Tina Ndoh, NC, bob: the all seeing eye?

Marc S NH to Patrick Hamlett, Tina Ndoh, NC, bob: Had to log back on

Angel D NH to Patrick Hamlett, Tina Ndoh, NC, bob: Mod...I am going to bed since I can only read now, I will read the log in the morning.

charles c az to Patrick Hamlett, Tina Ndoh, NC, bob: how do you know and why do you get kicked off?

Dana A WI: 1. Knowledge of the current state of the art.

Moderator (bob): We want to review the major issues from each groups weekend conference. Let's start with New Hampshire members. What were the MOST important issues that came up?

Don B: one was the seemingly implicit assumption that technology is the appropriate "fix" for alot of society's shortcomings

Frank C NH to Patrick Hamlett, Tina Ndoh, NC, bob: I'd say regulation, who and how

Dana A WI: oops--my bad--I started writing my own answer, then clicked Enter to go to the next line, which accidentally posted my number 1.

Moderator (Tina Ndoh, NC): Everyone remember to send chat to the entire room

Moderator (bob): As a "fix", you mean...?

Catherine J NH to Patrick Hamlett, Tina Ndoh, NC, bob: Another was what is realistic as far as advances, and what is just science fiction.

Marc S NH to Patrick Hamlett, Tina Ndoh, NC, bob: Bob are you speaking Gaelic?

Don B: In terms of "human enhancement"...

Catherine J NH to Patrick Hamlett, Tina Ndoh, NC, bob: Another was who determines the priorities.

Moderator (bob): Let's let the GA folks on team 1 now add their most important issues.

Don B: The idea that technology could somehow replace the more humanistic qualities we cherish

Moderator (Tina Ndoh, NC) to Catherine J NH: Catherine- make those comments to teh whole room

Jonathan R GA: One of the most difficult concerns to consider is whether or not genetic manipulation, which we considered evil when the Nazi's did it, will change the course of evolution, and will that be good or bad?

Eric B CO: Want to comment on Don B then will post our top issues

Catherine J NH to Patrick Hamlett, Tina Ndoh, NC, bob: I don't know how to do that. I'm not on team 1.

stephanie u to Patrick Hamlett, Tina Ndoh, NC, bob: I think we all had a big concern with rewriting of dna code, genetic changes.

Moderator (bob): Were these concerns the consensus view in both NH and GA?

allison a: inequality/classism was one regulation of emerging technologies is another and long-term effects on the quality of life

Eric B CO: My perception of the reading was that the fix was for human qualities that we may not cherish too much

Jonathan R GA: We also worried that the mere fact that this "discussion" is being held, implies the possibility that this technology is already spinning out of control, with no direction or oversight.

Moderator (bob) to Eric B CO: Eric - Hold on, we're still working with NH and GA.

Madhavi D WI to Patrick Hamlett, Tina Ndoh, NC, bob: I agree with EricBrown

stephanie u to Patrick Hamlett, Tina Ndoh, NC, bob: We also had a lot of concern about policing of research, use and misuse of these technologies.

Madhavi D WI to Patrick Hamlett, Tina Ndoh, NC, bob: that's my understanding too

Moderator (bob): OK - Wisconsin - Please feel free to add comments on the issues raised by NH and GA. Were your concerns similar?

Moderator (Patrick Hamlett): Only Team 1 is active right now; members of other Teams need to be patient

Tim H: we would also like to visually see some of these technological advances

John E WI: 1. Who is currently overseeing or regulating nanotechnology (presently).

Jonathan R GA: We felt the FDA cannot handle this, and wondered who could or would?

Dana A WI: 1. Discussions made me want to know the current state of the art and the best source(s) for keeping current. 2. How emerging technologies will be made available to people, and what criteria will be used? (with a subtext of, who decides who gets what and how to ensure equity of access). Those are my top 2.

stephanie u to Patrick Hamlett, Tina Ndoh, NC, bob: why are my notes only going to certain people? my "to" select menu is grayed out. Is that why?

Moderator (Patrick Hamlett): Tina's rapidly taking notes & we'll put up slides as soon as she's done

Don - WI to Patrick Hamlett, Tina Ndoh, NC, bob: Hi - I just went to the bathroom and when I clicked the "I'm back" door it re-enabled me - might want to watch that, people could unfairly jump in when their team is not supposed to be active!

Richard S to Patrick Hamlett, Tina Ndoh, NC, bob: >

Ariel T CO to Patrick Hamlett, Tina Ndoh, NC, bob: ok

Moderator (bob) to stephanie u : If you are not on Team 1 - your chat has been disabled. Team 1 is active now.

Don B: One concern is the trend towards immersion in a "virtual reality" as opposed to one that is grounded in human interaction

John E WI: 2. What is the current position of religious groups?

Ariel T CO to Patrick Hamlett, Tina Ndoh, NC, bob: I like Don's comment

Dana A WI: I'd add to 2, who decides who gets what and how to ensure equity of access and voluntary participation.

Jonathan R GA: Noone liked the fact that this market will apparently be business or money driven, which almost certainly implies classism and a greater division in our society between the "haves" and the "have nots".

Moderator (Patrick Hamlett): Note everyone: It's a big help to us if you include your state abbreviation when you sign in...

stephanie u to Patrick Hamlett, Tina Ndoh, NC, bob: Thanks!

Moderator (Patrick Hamlett): Anything else from NH, GA, WI or CO?

emily h to Patrick Hamlett, Tina Ndoh, NC, bob: got it

Moderator (bob) to stephanie u : CO - It's time for you to jump in and comment.

Eric B CO to Brett K CO: Brett: when the time comes what do you have for top 4? I have unintended consequences, accessibility & equality, government involvement via regulation and subsidy and widening the have/have-not gap

Dana A WI: no more from me.

Don B: It would have helped if I had a print out of our summary concerns, etc...

Tim H: I have issues with life extension

Moderator (bob): CO - It's time to jump in with your take on these comments.

Moderator (Patrick Hamlett): Don: The summaries are available for printing at the project web site

John E WI: 3. With the incorporation of nano devices in our bodies, who will own us, and what will happen to our identity?

Jonathan R GA: We were concerned about using it in military applications. Especially if they were "offensive" as opposed to "defensive". I.E. the reason I don't have a gun is that I might be more inclined to use it.

Brett K CO to Eric B CO: That sounds good to me, go ahead and post it to everyone

Dana A WI: Waving fingers at John (the sign for agreement in ASL).

Eric B CO to Brett K CO: In CO we came up with a long list but the top 4 might look like

Jonathan R GA: I have covered all of mine/ours I think.

charles c az to Patrick Hamlett, Tina Ndoh, NC, bob: has anyone thought of this new technology being a trick for a bigger issue that we do not know about?

Eric B CO to Brett K CO: Long term unintended consequences-physiological, societal, et al

allison a: allison ga good job by all

Eric B CO: In CO we came up with a pretty long list

Moderator (bob): Hello AZ & CA - Time for you to jump in!

Eric B CO: the top 4 might look like

Eric B CO: long term unintended consequences-physiological and societal

Eric B CO: accessibility and equality

Scott S AZ: Question was raised over the regulation, who watches the regulators? There are government agencies with oversight roles, but who watches them and how are we sure about their agendas? How much control do EPA and FDA have over DOD, DOJ, CIA, NSA, etc.?

Mark Philbrick CA to Patrick Hamlett, Tina Ndoh, NC, bob: Christina said she could be here tonight, but I haven't seen her log in yet.

Eric B CO: govt involvement-regulation and subsidies for market entry

Mary D CA to Patrick Hamlett, Tina Ndoh, NC, bob: For us the single most issue was regulation followed by 1) coercion versus freedom as subject of clinical trials.

Eric B CO: we all agreed that a huge part of being human isn't necessarily flesh and bone but also very experiential.

David C. AZ to Patrick Hamlett, Tina Ndoh, NC, bob: who is going to benefit most from the opening of this market

Don B: The idea for the push towards "immortality" was bothersome....

Lynda Z AZ to Patrick Hamlett, Tina Ndoh, NC, bob: I don't have great fears for a really useful idea being not accessible' look at penicillin.

Eric B CO: we felt that this new technology could diminish experience and consequences that may shape the way people act or develop

Moderator (bob): Anyone on Team 1 from AZ and CA present?

Eric B CO: I agree Don

Eric B CO: Huge likely consequences given a push toward immortality

Lynda Z AZ to Patrick Hamlett, Tina Ndoh, NC, bob: I can't get my send to off moderators to Room

Eric B CO: however, we also were able to identify

Jonathan R GA: Is this all AZ and CA now, or is it okay for us in GA to make comments?

Eric B CO: the possibility of new controls to react to this action

Terry R AZ to Patrick Hamlett, Tina Ndoh, NC, bob: terry R AZ some issues on varying religious beliefs and cultures

Moderator (Patrick Hamlett) to Lynda Z AZ: Lynda: You're not on Team 1, the only active Team at the moment

Moderator (bob): Don B & Eric - Are the immortality issue & "what makes us human" part of the same issue, or are they different somehow?

Lynda Z AZ to Patrick Hamlett, Tina Ndoh, NC, bob: ok

Don B: I think they are certainly linked

Eric B CO: I think they are linked but separate.

Eric B CO: an extended and exploding population has consequences

Eric B CO: like resource scarcity

Moderator (Patrick Hamlett): Tina's working on the slides of all these issues, so let's be patient -- she's working as fast as she can!

Don B: I think the push towards immortality somehow implies that one is not fulfilled in the here and now

Scott S AZ: Is it not human to want to stay around?

craig f CA to Patrick Hamlett, Tina Ndoh, NC, bob: what about military use against the general public and who will watch that craig f CA

Moderator (bob): Don - That fulfillment & the ways we seek to achieve it is part of "what makes us human".

Don B: I agree with Eric - not a very sustainable practice, unless of course, we begin populate deep space

John E WI: It might be a good thing to have a definition of "human"-- physically, biologically, mentally, spiritually, etc.

Charles c az to Patrick Hamlett, Tina Ndoh, NC, bob: amen to that brother

Eric B CO: It seemed me that there could be a way to extend life

Tim H: to me, it's about quality of life...not necessarily quantity (number of years)

Jonathan R GA: There must have been a reason why when the Nazi's did some of this stuff, we called it "evil". It's like now that we see that "we" might have this capability, we are ready to forget what we thought and said earlier.

Eric B CO: while preserving the experiential component of the human being

Charles c az to Patrick Hamlett, Tina Ndoh, NC, bob: people are going to be so much lazier for some of the new technologies coming out

Eric B CO: What the Nazi's did was evil because it was w/o anesthesia and against peoples will

charles c az to Patrick Hamlett, Tina Ndoh, NC, bob: yea who wants to live forever, seriously sometimes I want to die

Eric B CO: this would be based on most people's free will I assume.

Eric B CO: Although, we could have a future technocracy that runs amok

Moderator (bob): Eric B - But WOULD it always be based in free will?

Ricky L CO to Patrick Hamlett, Tina Ndoh, NC, bob: Can we leave the Nazi's out of this conversation. It is a sore spot in history...

Brett K CO: But Eric raises another point, by proxy, and that is that a lot of this technology could blur the lines of privacy..

Eric B CO: tough to say

Terry R AZ to Patrick Hamlett, Tina Ndoh, NC, bob: can Nano Particles be rejected as transplant organ are or trigger antibodies like a virus

Eric B CO: It certainly could, esp. as it progresses

foster f ga to Patrick Hamlett, Tina Ndoh, NC, bob: got booted again

Scott S AZ: It could actually be enabling.

Jonathan R GA: In our group, the funny thing was, when asked "if we would like to live to be 100, if it could be in a healthy body, most of our group was for it, and excited. But, when the same group of people were asked "how about 200", nobody as I remember was for it, or interested. The same people who wanted to live to be 100, felt that 200 was too much, and that it was time at some point for us to get out of the way, and let the next generation inherit the Earth.

Moderator (bob): In a moment we'll post a message about what has been discussed so far.

Eric B CO: Jonathan: similar results from the CO group

Eric B CO: and also from people outside the group that I've spoken w/

Moderator (bob): Jonathon - It makes you wonder if there is some natural limit to the desire for immortality.

charles c az to Patrick Hamlett, Tina Ndoh, NC, bob: if these technologies come out then what is next. that's the problem with human beings we are never satisfied. this could be the start of a never-ending reenactment of playing god

Scott S AZ: Isn't it possible the new technologies will allow more to go on together?

Ricky L CO to Patrick Hamlett, Tina Ndoh, NC, bob: we discussed the possibility of grandchildren going after the great grandparents jobs for having lived too long, and consuming all the resources

Eric B CO: Scott: can you explain further

Scott S AZ: It seems one could opt out at any time.

allison a: I don't understand

Eric B CO: "more to go on together"

allison a: that is the question can we opt out?

Moderator (bob): Scott - Opt out of what. Life?

charles c az to Patrick Hamlett, Tina Ndoh, NC, bob: yea what does that mean man

Scott S AZ: If one thought he was going on too long, he could stop using the enabling tech.

allison a: ga asked the same question. Who would "turn it off"?

John E WI: We had discussed the possibility of having to choose our own time of death, as in the old movie "Soylent Green".

Jonathan R GA: Could Scott S. please explain what he meant by these technologies will allow more to go on together?

Moderator (Patrick Hamlett): Here's NH & GA (Tina said that GA had a lot to say...)

Eric B CO: we discussed a light bulb analogy

Don B: another thing that came up in our group was that this technology could exacerbate the already existing tendency for people to give up responsibility for one's own self -

Moderator (bob): So far, we have the NH and GA summary. Look these over NH and GA. Is it an accurate summary of your group's questions/concerns?

Don B: can you add my latest - it was a big concern

Eric B CO: Personally, and on a side I guess

Moderator (bob): Don - We'll try to get that added in.

Eric B CO: I really think the huge issue is the way that nano particles

Jonathan R GA: In our group, no matter how beautiful or healthy you could be, 100 was as old as anybody wanted to get to, and some were even against that. I was under the impression that this included the option of some people opting in or out, but in our group of 13, nobody WANTED to opt in, to more than 100.

Don B: for NH, this was pretty much from the top of my head, so these were obviously foremost in my mind ... next time I will have to print out our group's response

Eric B CO: change properties from super-nano materials

charles c az to Patrick Hamlett, Tina Ndoh, NC, bob: nano particles?

Moderator (bob): OK - We posted WI and CO

Moderator (Patrick Hamlett) to Eric B CO: Eric: You don't want to hit Return at the end of each line of text you enter -- it makes your comments break apart

Moderator (bob): Are these accurate depictions from these groups?

Jonathan R GA: Allison, I think they summarized our concerns well enough ... do you?

Brett K CO: looks good to me

an l to Patrick Hamlett, Tina Ndoh, NC, bob: We're not able to see the right side of the text in the white board. Please use a hard return to prevent it from running off of the page.

Eric B CO: looks good

Ricky L CO to Patrick Hamlett, Tina Ndoh, NC, bob: That would be Us

Tim H: mr foster would have a lot more to add

allison a: I'm thinking the same Jonathan it looks great good job

charles c az to Patrick Hamlett, Tina Ndoh, NC, bob: hey am I still on can someone let me know

Scott S AZ: We in AZ did not get to how long one may want to live given the option; I have to contrast someone like my own father who had no interests in much of anything after he retired and my own wide ranging interests which probably couldn't be satisfied in several lifetimes.

Moderator (bob): an l - Problem noted. We'll try to fix that.

Jonathan R GA: What happened to Mr. Foster? Is he still outside?

John E WI: Could we add: What about the possibility of nanotech falling into the wrong hands (terrorists?); and can we turn off the nanodevices or can we go back to the way we were?

foster f ga to Patrick Hamlett, Tina Ndoh, NC, bob: I'm here but not active; on team 5

Moderator (bob): AZ is posted. Obviously we haven't got the edge problem fixed yet.

foster f ga to Patrick Hamlett, Tina Ndoh, NC, bob: reset your whiteboard margin if not locked

Dana A WI: Other WI concerns/questions that I recall were: Will money be the driving force in access to new technologies? Is development primarily in the private sector or the public? I think most of our others were covered by other groups here.

Moderator (bob): Well, I hope you got to read the slides. Do there seem to be many similarities across groups.

Jonathan R GA: Mr. Foster was the one person in our group in Georgia that actually had some first-hand work experience with some variations of some of these projections.

Catherine J NH to Patrick Hamlett, Tina Ndoh, NC, bob: We all thought priorities like cleaning the environment would be better use of this technology than extending life.

Tim H: I don't think he's able to join in this discussion

Moderator (Patrick Hamlett): Mr. Foster is on Team 5 & will participate when that Team is active

allison a: Mr. foster is in team 5 i think

Brett K CO: there are definitely some similarities, I think that the uncertainty of the effects of these devices pervades a lot of them

Jonathan R GA: I got you

magda v wi to Patrick Hamlett, Tina Ndoh, NC, bob: Right to Privacy issues

Jonathan R GA: When you mentioned him, Tim, I thought he was in Group 1 ... my mistake

Don B: It's hard not seeing the lists side by side...

Ricky L CO to Patrick Hamlett, Tina Ndoh, NC, bob: Could you elaborate for the rest of us...In ref to what Mr. Foster experienced, and how it correlates to this... We need info???

Catherine J NH to Patrick Hamlett, Tina Ndoh, NC, bob: The funding issue was big with us--who will pay for this, and who decides who can obtain the advances?

Don B: My general feeling is that the various groups raised basically the same types of issues

Moderator (Patrick Hamlett): We will post the lists created tonight on the project web page, so that you can print it out before Thursday.

allison a: there are similarities in the regulatory and human quality

Moderator (bob): It does appear many groups raised similar issues. As we refine them in future meetings, there seems to be some basis for agreement.

Brett K CO: I had another concern that wasn't spelled out; as these technologies converge, I think there needs to be an inter-disciplinary group that regulates their use and production

John E WI: I think there are many similarities, but was wondering about some more immediate feelings...I am only aware of potential disease and injury remediation as opposed to significant enhancements. How do we feel about the benefits of curing diseases, etc.?

Tim H: nanotechnology is so new and revolutionary. There has to be a paradigm shift in the way we think and comprehend

Moderator (bob): It seems that regulation overall is a major theme. Does that appear so to all of you?

craig f CA to Patrick Hamlett, Tina Ndoh, NC, bob: hey do we have to be at all the online groups even if we are in a different group craig f CA

Brett K CO: yes

Teresita B CA to Patrick Hamlett, Tina Ndoh, NC, bob: I know my team is not up until Thu, but a review of all notes on the project site reveals many similarities. Will the moderators move the discussion, so each discussion is building on the last one?

Marc S NH to Patrick Hamlett, Tina Ndoh, NC, bob: yes

allison a: yes

Tim H: yes

John E WI: Very important

Dana A WI: Yes to the regulation question, Bob. And then John, that's the genuinely exciting part of all this to me.

charles c az to Patrick Hamlett, Tina Ndoh, NC, bob: hey does anyone think that if we get a chip implanted in us that my have a mind control device in it?

Moderator (Patrick Hamlett) to craig f CA: Craig: We want you to be present for the full discussions

Jonathan R GA: One or two persons in our group mentioned the possibility of nanotechnology falling into the hands of terrorists. However, I don't think it was really a concern. Since the U.S. has already attacked Iraq, albeit in response to 9/11, our concern was more that since the military already seem to be testing applications of nanotechnology, some of which even sound unhealthy, or potentially harmful to our soldiers, our concern was not with terrorists, but with whether we would use this weapons DEFENSIVELY rather than OFFENSIVELY, which seems to be our current disposition.

Don B: regulation - who's controlling and funding, and will they have an agenda?

Moderator (Tina Ndoh, NC) to Catherine J NH: A panelist from CO...the state is running into the name

Moderator (bob) to Teresita B CA: Teresita, that our goal - keep building on each meeting.

Scott S AZ: When has it been otherwise?

foster f ga to Patrick Hamlett, Tina Ndoh, NC, bob: got booted again; can the primary timeout be reset

charles c az to Patrick Hamlett, Tina Ndoh, NC, bob: another thing when you say terrorist whom are you referring too?

Moderator (Patrick Hamlett) to foster f ga: Foster: I'll try to find out what we can do about your frequent disappearances

charles c az to Patrick Hamlett, Tina Ndoh, NC, bob: the government or so called Iraq?

foster f ga to Patrick Hamlett, Tina Ndoh, NC, bob: thanks, tried resetting my time out and that does not appear to work

Jonathan R GA: To rephrase that ... I don't think terrorism was really a concern ... it was more troublesome to think about what WE would do with this.

Scott S AZ: The question is how can this all be sorted out without stifling development and without drowning in the gray goo.

Brett K CO: I wonder if these questions and concerns are similar to those raised when nuclear power became a reality

Moderator (bob): It's getting to be about time to wrap up. Those of you on Teams 2 & 3 be prepared to carry the discussion forward on Thursday. Are there any questions about goals, procedures, etc. we can answer for you at this time?

magda v wi to Patrick Hamlett, Tina Ndoh, NC, bob: We are all WE..we have met the enemy and it is us

Ariel T CO to Patrick Hamlett, Tina Ndoh, NC, bob: sounds good bob

James B to Patrick Hamlett, Tina Ndoh, NC, bob: I'm ok

Ricky L CO to Patrick Hamlett, Tina Ndoh, NC, bob: Can't think of any

Don B: is this the format that will be repeated throughout the week?

les k wi to Patrick Hamlett, Tina Ndoh, NC, bob: will this take place at the same time on Thursday?

Dana A WI: no--thanks, Bob.

Jonathan R GA: we suggested an international panel made up of scientists AND lay-people ... sort of like the NOBEL prize committee, or a truly functional arm of the United Nations, if they can ever become productive...

Virginia P WI to Patrick Hamlett, Tina Ndoh, NC, bob: what happens when we get dropped, and have to register again and again?

Catherine J NH to Patrick Hamlett, Tina Ndoh, NC, bob: I assume we should all log on as we did tonight, even though I'm on team 5, so I won't be discussing on Thursday.

Frank C NH to Patrick Hamlett, Tina Ndoh, NC, bob: Will there be an expert available on Thursday and who?

Moderator (Patrick Hamlett): When you log in on Thursday, please use this format: Mary S CA (First name, last initial & state abbreviation).

Marc S NH to Patrick Hamlett, Tina Ndoh, NC, bob: No. Thanks for bearing with us.

Moderator (bob): SAME TIME ON THURS. - YES.

les k wi to Patrick Hamlett, Tina Ndoh, NC, bob: thank you

Ricky L CO to Patrick Hamlett, Tina Ndoh, NC, bob: Manyana

Eldrine Rto Patrick Hamlett, Tina Ndoh, NC, bob: Yes

charles c az to Patrick Hamlett, Tina Ndoh, NC, bob: well thanks for the input everyone now i know what to look forward to the next discussion

James B to Patrick Hamlett, Tina Ndoh, NC, bob: I'll be here

Tim H: ok

allison a: i know your talking about me... will do

Ariel T CO to Patrick Hamlett, Tina Ndoh, NC, bob: ok

Moderator (Tina Ndoh, NC) to Frank C NH: Frank, experts will be available later in the month, when clear questions have been formed

Teresita B CA to Patrick Hamlett, Tina Ndoh, NC, bob: Yes, there is a strategic plan which covers answers to some of the initial questions that, I believe, all teams addressed. Can that be available to all teams? Also, how does this pubic process fit into the strategic plan or a process that began in 2001?

Moderator (bob) to Catherine J NH: Correct Teams 2 & 3 only on Thurs. That means you'd be up Sunday evening.

charles c az to Patrick Hamlett, Tina Ndoh, NC, bob: peace out everyone and tell everyone the significance of nanotechnology

Eric B CO: over and out...Thanks

Catherine J NH to Patrick Hamlett, Tina Ndoh, NC, bob: Okay, thanks.

Ashley J GA to Patrick Hamlett, Tina Ndoh, NC, bob: Can we leave now?

foster f ga to Patrick Hamlett, Tina Ndoh, NC, bob: Dr Hamlett

Moderator (bob) to Catherine J NH: Everybody ready to sign off?

Don B: time to sign out I guess...

Virginia P WI to Patrick Hamlett, Tina Ndoh, NC, bob: signing off???

Catherine J NH to Patrick Hamlett, Tina Ndoh, NC, bob: yes...

Moderator (Patrick Hamlett): Thanks to everyone! Good work all! See you Thursday evening...

Brett K CO: sounds good, see you all Thur

John E WI: wow--we were able to move through this

les k wi to Patrick Hamlett, Tina Ndoh, NC, bob: good bye

Moderator (bob) to Catherine J NH: If you're ready to sign off - Feel free to do so

Jonathan R GA: NOW that I am getting the hang of this on my friend's laptop with dial-up only, I AM LOOKING FORWARD TO THURSDAY NIGHT. GOODNIGHT EVERYONE.

foster f ga to Patrick Hamlett, Tina Ndoh, NC, bob: Thanks for the help; got booted 3 times but got right back in just a nuisance

Terry R AZ to Patrick Hamlett, Tina Ndoh, NC, bob: terry R AZ how early before the schedule will the room be open

Jennifer C GA to Patrick Hamlett, Tina Ndoh, NC, bob: Good night and may God Bless.

Madhavi D WI to Patrick Hamlett, Tina Ndoh, NC, bob: goodnight folks

Ariel T CO to Patrick Hamlett, Tina Ndoh, NC, bob: good night everyone

allison a: goodnight

Tim H: go falcons

trisha b az to Patrick Hamlett, Tina Ndoh, NC, bob: good night

Jennifer C GA to Patrick Hamlett, Tina Ndoh, NC, bob: For All: Nighty Night!

Charles P CA to Patrick Hamlett, Tina Ndoh, NC, bob: Goodnight

James B to Patrick Hamlett, Tina Ndoh, NC, bob: It went ok, night all.

Moderator (Tina Ndoh, NC) to Terry R AZ: 45 mins ahead of time

craig f CA to Patrick Hamlett, Tina Ndoh, NC, bob: see you craigf CA

Tamera R to Patrick Hamlett, Tina Ndoh, NC, bob: bye everyone

j logan az to Patrick Hamlett, Tina Ndoh, NC, bob: Good night.

charles c az to Patrick Hamlett, Tina Ndoh, NC, bob: nightynight

Ariel T CO to Patrick Hamlett, Tina Ndoh, NC, bob: go Broncos

Jonathan R GA: GOODNIGHT MS. ADAIR, AND TIM.

Tim H: later jonathan

Ariel T CO to Patrick Hamlett, Tina Ndoh, NC, bob: how do I change my name

Jennifer C GA to Patrick Hamlett, Tina Ndoh, NC, bob: Good Night Mrs. Calabash . . . whoever you are! (Age really showing here, eh?)

Ariel T CO to Patrick Hamlett, Tina Ndoh, NC, bob: i changed my profile but it still shows up the same way

Scott S AZ: See you Thursday. I am looking forward to more sunny days in the 70's here.

Jennifer T to Patrick Hamlett, Tina Ndoh, NC, bob: bye

Eldrine R to Patrick Hamlett, Tina Ndoh, NC, bob: good nite

Moderator (bob): Good night all

nichole c co to Patrick Hamlett, Tina Ndoh, NC, bob: Later
