University and Departmental Service

I served on the following committees of the School of Physical and Mathematical Sciences (PAMS): Promotion and Tenure Committee, Research Committee, Scientific Computing Committee.

I served on the following committees in the Department of Mathematics: Faculty Advisory Committee (2 terms), Promotion and Tenure Committee (2 terms), 10 Hiring Committees (4 as chair or co-chair), Qualifying Exam Committee (3 terms), Graduate Program Committee (3 terms), Undergraduate Mathematics Majors Committee (2 terms), Publicity and Awards Committee (Chair, 3 years; Member, 2 years), Graduate Recruiting Committee (5 terms). In addition I served on the committee that wrote the original Promotion and Tenure Guidelines and the Departmental Reorganization Committee that wrote the present Departmental Bylaws.

Besides teaching a wide variety of courses at all levels both to mathematics majors and nonmajors, in sections with as few as 5 students and as large as 240 students, I developed an undergraduate course in Discrete Mathematics (with John Bishir) and a graduate course in Symbolic Computation (that led to the present year-long sequence in this subject) and a semester-long advance undergraduate/beginning graduate course in Computational Algebraic Geometry. I have also taught Special Topics courses in Algebraic Curves, Symbolic Analysis and Differential Galois Theory. I have served for many years as the course coordinator of the Calculus for Life and Business Majors.
